SINGLE TIER TENANT STORAGE LOCKERS

LAYOUT SUGGESTIONS

Totally adaptable, our tier tenant storage lockers can be configured any way you want. The unframed design means layout options are limitless. Lockers can be back-to-back, against a wall, or grouped as islands. No matter your room design, our team of engineers will make the most out of your tenant storage area.

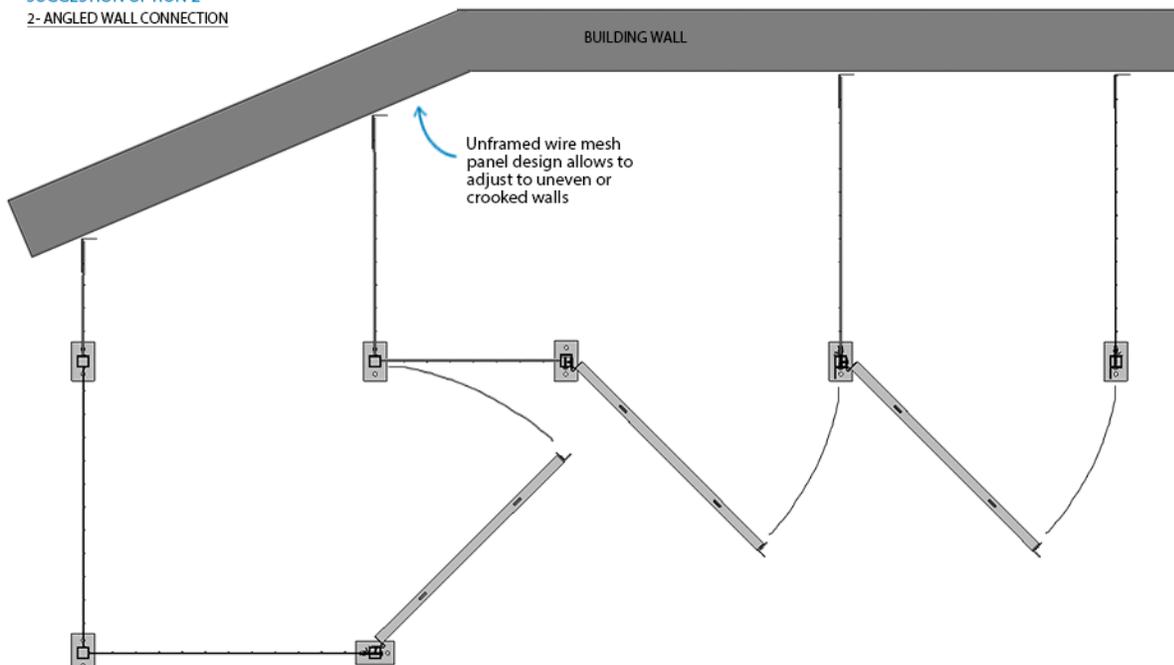

SUGGESTION OPTION 1

1- STRAIGHT WALL CONNECTION

SUGGESTION OPTION 2

2- ANGLED WALL CONNECTION

SUGGESTION OPTION 3
3-NO WALL CONNECTION

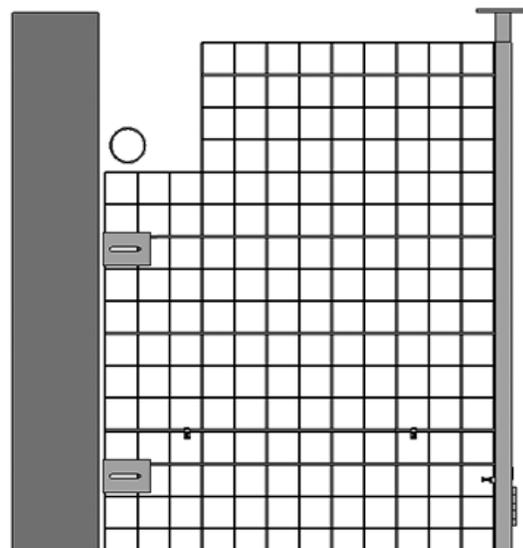

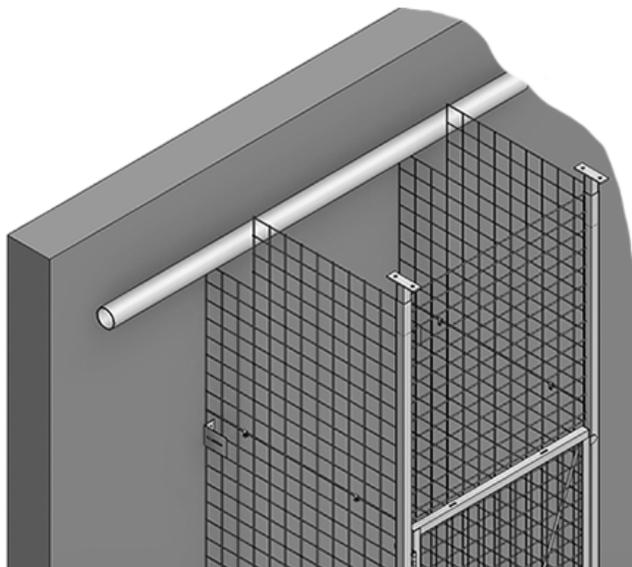

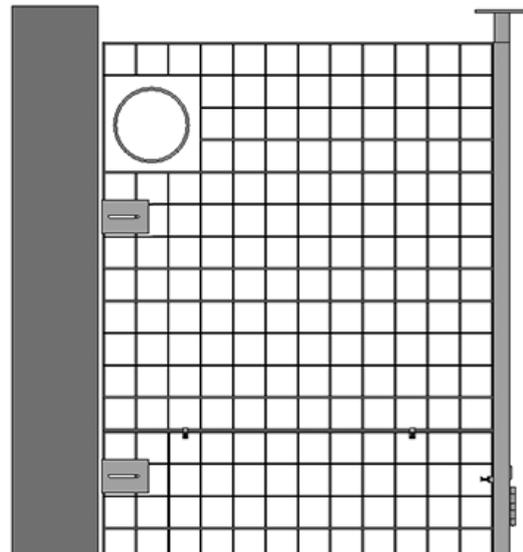

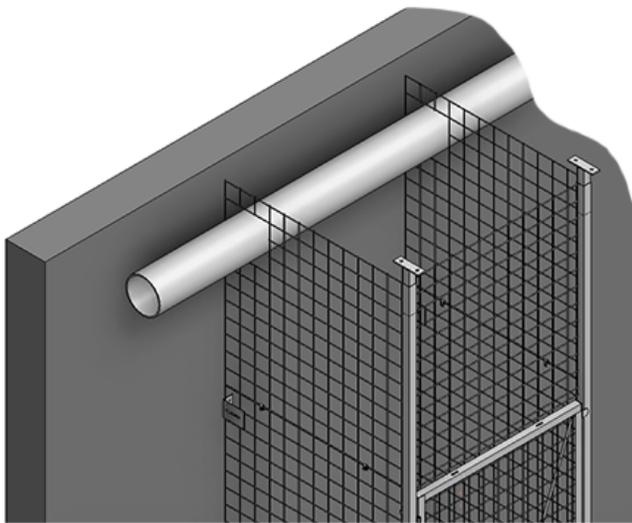

SITE CONDITION INSTALL TIPS

Cogan tenant storage lockers are the most adaptable and cost-effective storage solution on the market. Made from unframed 6&8GA galvanized welded wire mesh, our tenant storage lockers are specially designed to accommodate the obstructions found in any condominium basement or parking garage area. Installation is trouble-free as all cut-outs, trimming and other adjustments can be done right on-site, saving you valuable time and money. With all of these key features, it comes as no surprise that Cogan tenant storage lockers are the number one locker of choice among condo developers in North America.
