

DUTCH GATE

Description

Cogan's Dutch gate is designed to act as both a swing gate and a service counter. Open the top and bottom portions for full-access or open only the top portion to create a service wicket. Installs in two orientations. Padlock hasp and hinges as well as a spring latch are included. Additional lock options are also available. Doors are made of heavy-duty 16 GA corrugated steel framed in 1 1/4" x 1 1/4" x 12 GA structural angle.

EXAMPLE:

Typical 3'W x 7'H (+ 1' transom panel) Dutch gate shown here.

Panel configuration and quantity will vary based on gate dimensions.

Assembly instructions are specific to the size and material of your gate. See Installation Manual for complete details.
